

# HOW WOULD YOU **LOVE** TO LIVE?

Designer Tanya Jones has extensive experience helping clients really **love** where they live... whether that be a small apartment or a large country house.

I work with my clients to look at their existing space, assess its layout potential, and then tailor it to suit exactly how they **want** to live. I will then work with them throughout the design and detail stages and specify their choices. I also have excellent trade relationships so can source the right people for every job.

I have been featured in Homes & Gardens, Good Housekeeping and The Sunday Times Style Magazine. I was also involved in the commercial renovation of The Odyssey Cinema, St.Albans
