Image of the Logo

- We are thinking picks as UX. Don't make it like too tech logo
- Please follow the Brand Image
- Keep it simple. We don't need more than one color
- Image color is this #FF4802
- We would use the logo for the App Icons
- Seperate the logo and the Character.
- We would use the Logo for some real goods (bag for takeout, t-shirt, box, poster, cap..)
- We want to follow the logo design-trend
