- Creating a new trip requires a name, at least one destination and who you are traveling with
 - Can add friends to trip
 - Collaborative editing can be done by anyone on the trip
- Trip planning view is very similar to trip detail view (next mock)
- Can edit how many days in each city, accommodation and transportation
- Adding in activities / destination can either be populated by API call to Google Maps or pulled from your favorites list
- Destinations / activity cards can be dragged above or below one another to order your day
 - Ability to group by morning, afternoon, evening or hourly if needed
- Ability to add new city (scrolls right)
- Ability to add someone outside of your trip to join you for a particular activity or day or city
 - Adds to their itinerary as well (for overlapping travels between friends on discrete trips)
 - Payment splitting
